

Earn Your Electrical License

INDUSTRIAL ELECTRICIAN APPRENTICESHIP

**CLASSES STARTING
JANUARY 11, 2022**

ATU and ACEF are partnering to offer an apprenticeship specific to industrial environments. Industrial electricians maintain and repair many types of electrical equipment. Apprentices will gain knowledge in motors, transformers, controls, instruments, safety, PLCs, networks, control loop, conductors, conduits, lighting systems, power distribution, and more. You'll also learn to use/select test and calibration equipment and gain skills working from drawings or diagrams.

Evening Classes at

Arkansas Tech Career Center
2201 S. Knoxville Avenue
Russellville, AR 72802

More Information | Registration
December 14 or January 4 (5:30pm)
at Arkansas Tech Career Center
